

EPSRC Centre for Doctoral Training in Fluid Dynamics code of conduct for events – 02.04.2020

It is the policy of the EPSRC Centre for Doctoral (CDT) training in Fluid Dynamics at Leeds that all participants, including attendees, vendors, CDT staff, volunteers, and all other stakeholders at CDT events will conduct themselves in a professional manner that is welcoming to all participants and free from any form of discrimination, harassment, or retaliation. Participants will treat each other with respect and consideration to create a collegial, inclusive, and professional environment at CDT events. Creating a supportive environment to enable scientific discourse at CDT events is the responsibility of all participants.

Participants will avoid any inappropriate actions or statements based on individual characteristics such as age, race, ethnicity, sexual orientation, gender identity, gender expression, marital status, nationality, political affiliation, ability status, educational background, or any other characteristic protected by law. Disruptive or harassing behavior of any kind will not be tolerated. Harassment includes but is not limited to inappropriate or intimidating behavior and language, unwelcome jokes or comments, unwanted touching or attention, offensive images, photography without permission, and stalking.

Violations of this code of conduct policy should be reported to CDT staff in person, or by email at fluid-dynamics@leeds.ac.uk. Sanctions may range from verbal warning, to ejection from the event without refund, to notifying appropriate authorities. Retaliation for complaints of inappropriate conduct will not be tolerated. If a participant observes inappropriate comments or actions and personal intervention seems appropriate and safe, they should be considerate of all parties before intervening.

Based upon the APS code of conduct for events, please see <https://www.aps.org/meetings/policies/code-conduct.cfm>
